

## Warning and Instructional Labeling

### Power Tools

Warning and instructional labels contain critical information about safety and handling of power tools. Labels serve various functions including logos, warning labels, and serial numbers. These labels need to last the life of the product, adhere to difficult substrates such as plastics and metals, and may require higher heat resistance.

Mactac® durable film solutions are designed for long term durability and performance in harsh environments. These products are UL and cUL recognized for both indoor and outdoor applications and several are IMDG (International Maritime Dangerous Goods) compliant. All stocks are readily available on our precise program and many products are available with same day shipping.

### Features & Benefits:

- Extreme resistance to weathering, humidity, soiling, grease and oil
- Topcoat resists smudging and abrasion when printed with film inks for flexo printing and resin ribbons for thermal transfer printing
- Excellent adhesion to metal, powder coated paint and plastic surfaces
- Offered through Mactac's Precise Program to accommodate smaller orders

The following Mactac products are UL Recognized under UL969 for indoor and outdoor applications. For specific recognition, consult UL file MH12627.

Product Code	Facestock	Adhesive	Liner	Topcoat
BDE6914*	2.6 mil Matte White UV Resistant Polypropylene	MP690	3.2 SCK	Flexo & TT printable
VDG6911*	3.4 mil Matte White Vinyl	MP690	3.2 SCK	Flexo & TT printable
FAD6914	2 mil Gloss Clear Polyester	MP690	3.2 SCK	Flexo & TT printable
FCD6914*	2 mil Gloss White Polyester	MP690	3.2 SCK	Flexo & TT printable
FDD6919*	2 mil Matte White Polyester	MP690	3.4 CIS	Laser & Impact printable
FED6914	2 mil Bright Silver Polyester	MP690	3.2 SCK	Flexo & TT printable
FFD6914	2 mil Matte Silver Polyester	MP690	3.2 SCK	Flexo & TT printable
FGD6914	2 mil Brushed Silver Polyester	MP690	3.2 SCK	Flexo & TT printable

\* IMDG Compliant
