CERTIFIED STOCKS FOR INDIGO

INDIE® Topcoated and redigo™ Non-Topcoated: Mactac has the label stocks to fit your digital needs!

INDIE topcoated Roll Stocks for HP Indigo printing help you showcase your creativity and win more high value label jobs: INDIE Prime Papers and White and Clear Films for both WS6000 and WS4050 printers. INDIE PSA performance stocks help you take digital printing to the next level:

All Certified by RIT (Rochester Institute of Technology) - 3 Stars
All Delivering Brilliant Colors
Consistently High Quality - Job after Job

redigo is a new line of untreated label stocks that offer converters the convenience of applying their own topcoats. The new line of redigo stocks are optimized through paper chemistry and process conditions during adhesive coating to perform best for topcoating on press. The redigo paper products mirror the INDIE products, allowing customers to have the same product both pre-treated and ready to be Indigo printed or non-treated and ready to be topcoated.

INDIE and redigo PSA performance stocks help you take digital printing to the next level, for all your Short run, high quality, complex label jobs. For new product introductions, seasonal and regional products, test marketing, variable Information, special promotions and more.
